Please read and understand these instructions completely before installation to avoid possible injury, or damage to the accessory or vehicle.

WARRANTY DISCLAIMER

SSV Works offers a warranty on all products manufactured by SSV Works, covering defects in material or workmanship. For Kicker products included with SSV Works systems, SSV Works handles all warranty claims directly, eliminating the need to contact Kicker separately. Warranty coverage is as follows:

- Enclosures/Panels (SSV Works): Limited Lifetime Warranty
- SSV Works Speakers and Subwoofers: Limited Lifetime Warranty
- Kicker Speakers: Limited 3-Year Warranty
- Kicker Subwoofers: Limited 1-Year Warranty
- SSV Works Amplifiers: Limited 2-Year Warranty
- Kicker Amplifiers: Limited 2-Year Warranty
- SWITCH Works Products: Limited 3-Year Warranty

This warranty does not cover damage caused by misuse, improper installation, or unauthorized modifications. For warranty claims, please contact SSV Works directly for assistance.

TOOLS NEEDED

- 10mm socket
- 13mm socket
- 13mm box wrench
- 15mm socket
- 15mm box wrench
- T40 Torx

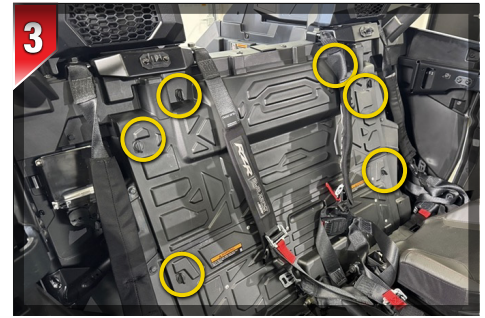

DISASSEMBLY - SEATS

To remove the front seats, disconnect the power harness under the front of each seat. Release the seat latch under the front of the seat, then lift the seat up and out.

To remove the rear seat backrests, release the latch behind the headrest, then lift each backrest up and out.

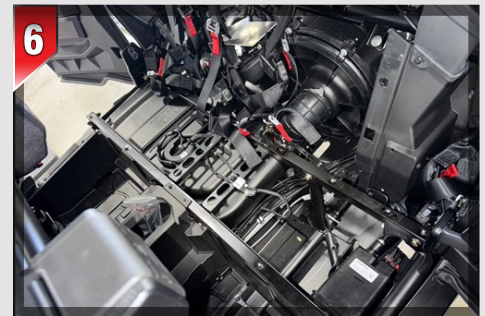

Release the six (6) twist locks on the rear firewall, then remove the two-piece (2-piece) plastic panel.

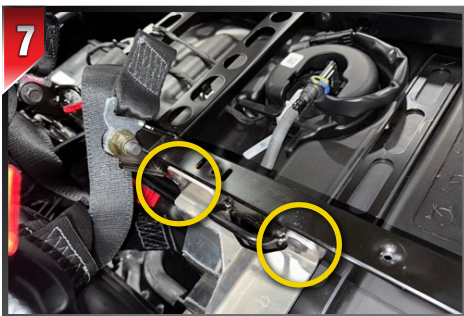

To remove the bottom seat cover, flip the bottom seat pads forward and remove the twelve (12) T40 screws from the plastic panel.

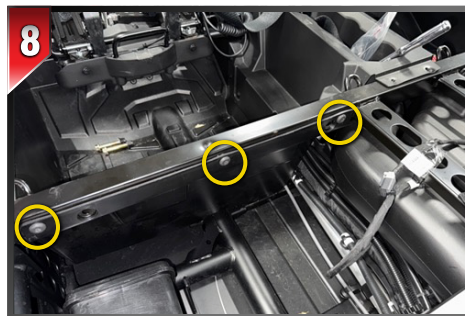

Using a 13mm socket and 13mm open wrench, remove the bottom seat pads. There are Two (2) bolts per seat.

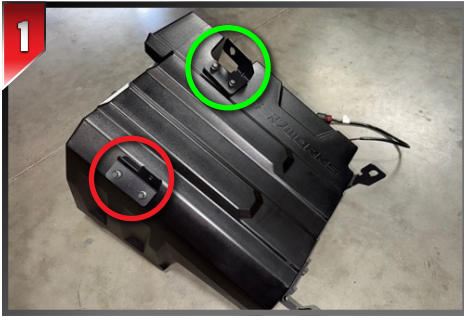

Using a 15mm socket and wrench, remove the bolts holding in the metal H-bracket.

Remove the heat shield attached to the H-bracket. Some models are using a Two (2) T40 bolts, some use Two (2) 10mm bolts.

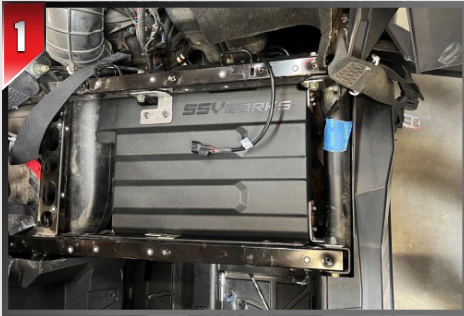

Remove the final Three (3) T40 bolts (both driver and passenger side) on the inside of the H-bracket. Once those are removed, the H-bracket can be lifted out of place.

PRODUCT ASSEMBLY

1
Locate mounting bracket A and D, mount them to the top of the enclosure. A is circled in Red, D is circled in Green.

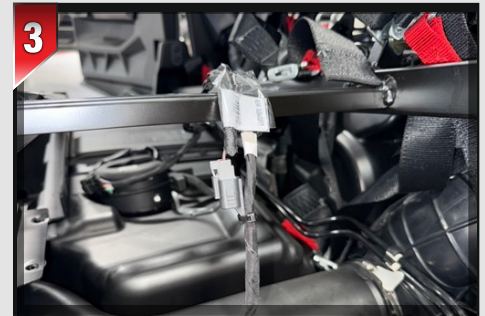

2
Locate mounting bracket B and C, mount them to the side of the enclosure. B is circled in Red, D is circled in Green.

INSTALLATION

1
Drop the subwoofer in place, and reinstall the H-bracket.

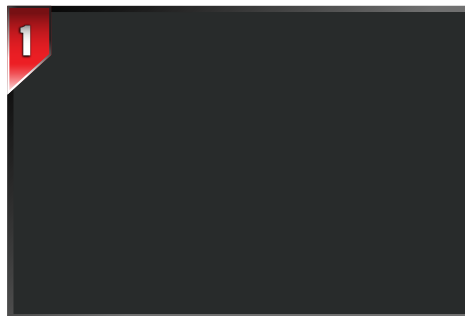

2
Use the factory hardware to mount the subwoofer enclosure in place.

3
Locate the factory Rear Subwoofer output harness. This should be laying right above the intake tube in the middle of the back seat. Decap the plug.

TEST SYSTEM AND REASSEMBLY

4
Locate the B-H4053 subwoofer harness, plug that into the factory Rear Subwoofer harness, and the SSV Subwoofer enclosure harness.

1
Your subwoofer should now be working. Go ahead and test the system. If everything working, you can now reassemble your vehicle.
